

DISABILITY FOCUS GROUPS

LET'S TALK

We're hosting focus groups to hear your ideas about making trails and outdoor spaces more welcoming for people with disabilities. We want to know how we can improve access and help everyone feel included. We

will also be asking for feedback on a policy we are creating to ensure access and inclusion for people with disabilities in our organization. Honorariums will be provided to those who share their life experiences with us. If you'd like to participate or need accommodations, please let us know. Contact us using the information below!
